

Leverage Heat Pump HVAC Incentives

TECH Clean California contractors save up to \$1,000 on heat pump HVAC units for single family homes.

TECH Clean California is offering substantial incentives direct to certified contractors to support the installation of heat pump technologies in existing single family homes throughout California. **For more information, please visit switchison.org/contractors/tech-clean-california.**

Single Family Heat Pump HVAC Incentives

Single family incentives are available for any properties with four or fewer dwelling units or for individual replacements in a larger multifamily building. TECH Clean California is also providing flat incentives statewide. Additional incentives available through partner programs can be stacked with TECH Clean California rebates for a higher total potential incentive. **For a list of available heat pump rebates throughout California, please visit incentives.switchison.org/contractors.**

Qualifying Installations

Incentives are limited to two outdoor units per home.
